

IT SPECIFICATIONS - Minimum

WIFI – 5GHz compatible (802.11ac / WIFI 5 or 6)

Processor – i5 (7th / 8th Gen) or equivalent

RAM – 4GB (8GB Recommended)

64 Bit Operating System (necessary for Adobe Suite)

HDD – Solid State (128GB)

Warranty – 3 Years (Preferably with Accidental Damage Cover)

Windows 10 [or Latest Mac OS]

Capable of running the full version of OneNote

Capable of at least 8 hours of battery life (as stated by the manufacturer)

Suggested

Case / Bag or similar for protection and transport

Check that the 5GHz Wireless system is set up on the device

Please note

Users of **Apple** Macs will need to purchase a copy of “Parallels” and a Windows 10 Licence, if their subjects include the use of Microsoft Access (database). In addition, the device will need a minimum of 8GB of RAM.

The student **MUST** be a local Administrator on the device – IT cannot help with problems, otherwise if “Family Options”, in Windows 10, is activated – IT may not be able to assist the user with immediate issues. IT cannot bypass passwords or other verification processes that are activated under this option.

Chromebooks and iPads are NOT suitable as BYOD
